**THIS IS THE THIRD ASSASSINATION**

The shooting of President McKinley

is the third assassination of the Chief Magistrate of the United States which has taken place since the foundation was laid of this republic.

The two preceding crimes of this kind resulted fatally. President Abraham Lincoln, having been the first victim and President James A. Garfield the second to die by an assassin's bullet.

That any person should feel disposed to commit a crime of this kind in a country where the people govern is a mystery which can not be fathomed.

In this instance, the crime is all the more difficult to be understood unless it should have been committed by an intense partisan of the Philippine cause.

The country is practically at peace (Continued on Page 2.)

### STRIKERS GO AGAIN TO WORK

A Number of the Steel Mills Resume Operations With Forces of Men.

### ENGLAND'S FEAR OF OUR TRADE.

Significant Views of the Men Who Control British Public Opinion.

PITTSBURGH, Pa., Sept. 6.—The Demolition of the Steel Mills at McKeesport resumed operations this morning. Six mills out of fifteen were started with nearly 100 men, many of them being old employees. There was no disorder. The deputies showed some duties, but only a few strikers were about.

At noon a notice was posted at the Demolition works calling the attention of the old employees to the fact that the plant had resumed and requesting all who wished to return to work to report for duty not later than next Monday morning, or their places would be filled by other workmen. The notice was signed by the American Tin Plate Company.

Manager Lusk stated at that time that he had seven mills running and had enough men to fully operate them.

Five hundred more men were at work in the National Tube Company's plant at McKeesport this morning, making 1,000 men now in the plant. Many others applied for work, but they were turned back because the mill was not in shape to take any more men on. It was stated in McKeesport that the strikers seemed to feel that their strike was lost, though they would continue their picket duty and endeavor to induce the men not to return to work in the mills.

At the Demolition works in this city the management announced today that it had enough men to double turn and five mills will be put on at night next week.

LONDON, Sept. 6.—The vast ambitions of the United States, as deduced from what the St. James Gazette calls President McKinley's sensational speech at Buffalo continue to be the theme of the London editorial writers.

"As military power and commercial enterprise must go hand in hand," says the St. James Gazette, "the importance of the statements upon the world of politics as revealing the new epoch upon which America is entering, must be immense."

The Evening Standard inquires if the reference to the Ishmian Canal is a "hint to England that the Clayton-Bulwer treaty will have to go. It looks like it."

The paper considers that "the determination of the United States to be uppermost in Central and South America, both commercially and politically, is one of the hardest facts of our times."

"The Globe thinks President McKinley's program forecasts the severe rivalry which Great Britain must expect from the United States, amounting, as the paper believes, to a definite abandonment of extreme protection."

### LEADING INCIDENTS OF THE PRESIDENT'S CAREER

President McKinley's career illustrates the opportunities afforded to men of capacity under our form of government and the manner in which the natural law of selection is worked out in a Democratic system.

The son of a small ironmaster who was ruined by the tariff changes in 1846, he became an ardent student of political economy.

While he served in Congress he showed his mastery of the subject and exhibited a profound and comprehensive acquaintance with the laws of production and the effect of legislation thereon.

During the war between the States he was a volunteer soldier for the preservation of the Union, winning rank and honors by his courage and capacity in the field.

Elected to Congress, he speedily took rank as one of the foremost thinkers and debaters of that body. He served several terms, being always elected from a Democratic district. He served as chairman of the Ways and Means Committee at the sessions of 1889-90 and largely directed the framing of the tariff act passed at that session which bears his name.

By a gerrymander he was thrown into a district containing several thousand adverse majority. This caused his defeat that year by a very narrow majority, the only defeat he ever encountered during his political career.

But this defeat, under the circumstances, only endeared him to the people of Ohio, who elected him Governor by a tremendous majority. He was re-elected by a still greater majority, and the whole nation seemed waiting to do him further honor. In 1896 he was elected President by an overwhelming majority with the largest popular vote ever cast.

In 1900 his administration was so eminently successful at home and abroad that the only question involved in the election was the size of his majority. His re-election was a triumphant vindication of the economic policies for which he had stood all his life, and was the greatest endorsement of administrative methods ever accorded a President in this Republic.

He found the treasury empty and he refilled it. He found the finances deranged and he reformed them and placed them on a sound basis.

When he entered office commerce and industry were paralyzed. He speedily applied corrective measures, with the result that the country entered upon a season of unparalleled prosperity and unprecedented industrial activity.

His wisely directed policy brought about the acquisition of new territory and made the United States States the foremost power of the world in wealth and influence.

In his domestic life President McKinley was a model of all the household virtues. His life-long devotion to an invalid wife is one of the most beautiful things in history. His generous benevolence, kindly tolerance and absolute personal purity added luster to his genius and splendid executive ability. His greatest monument is the enduring national prosperity he left as a legacy to his countrymen.

### ASSASSIN MAKES BOLD STATEMENT.

BUFFALO, Sept. 6.—The prisoner was locked up at police headquarters. Soon after the shooting Nieman was asked why he shot the President, and he said:

"I am an anarchist, and I did my duty."

\*\*\*\*\*

### AM I SHOT SAID THE PRESIDENT

BUFFALO, Sept. 6.—When the President was shot he fell into the arms of Detective Gerry, of whom he coolly asked:

"Am I shot?"

Gerry unbuttoned the President's vest and seeing blood, replied:

"I fear you are, Mr. President."

The would-be assassin fired through the handkerchief which concealed the weapon.

Detective Ireland was only two feet away when the shot was fired. He immediately jumped upon Nieman and forced him to the ground.

Instantly twenty men jumped on Nieman when he had been thrown by Ireland, and when he was rescued from them his face was cut open and he was covered with blood.

### CAREER OF PRESIDENT M'KINLEY.

A campaign article giving the career of President McKinley is as follows:

As a strong unwavering leader and champion of the cause of protection to American industries and American homes, William McKinley needs no introduction to the American people. Truly has it been said of him that his life has been typical of all that is best in the self-made American, his career one that affords stimulus and inspiration to the youthful brain and sinew of our country.

No better incentive to ambition in the American youth, no matter how humble his origin, can be found in the lives of the public men of today than in

## TWO VALUES.

HERE are two values to every purchase—what it costs and what it pays you. Cork costs 8 cents a pound, but if you are drowning half a mile from shore, its value would be "not what you pay for cork, but what cork saves you." When a woman buys soaps she often confuses the two values. She sees only what she pays. She overlooks what she receives. Now a single cake of Ivory Soap pays back from ten to twenty times its cost in the saving it effects. Test it yourself! Vegetable Oil Soap. Ivory white. It floats!

TRADES COUNCIL  
IS ON THE  
WARPATH.SCORCHING RESOLUTIONS ARE  
PASSED ON P. B. PREBLE,  
LABOR LEADER.Committee of Workmen Declare  
That He Has Libeled a  
Friend.

At a regular meeting of the Building Trades' Council of Alameda county, held on August 27th, 1901, the following resolutions were adopted:

"The Committee on Resolutions relative to an article which appeared in the issue of August 7, 1901, of 'The Contractor and Builder,' a weekly paper, edited and published in the City of Oakland by one P. B. Preble, beg leave to report as follows:

"After a careful perusal of the article in question, your committee concludes that in justice to the parties whose character the writer assails, we analyze, as far as lies in our power, the official records of the parties in question.

"As the writer particularly charges P. H. McCarthy, president of the S. F. Building Trades' Council with using his official position to widen the scope of his own political ambition and, by reason of that fact, endeavors to injure instead of benefit the various organizations affiliated with the Building Trades' Council which he represents as president, the committee, after a careful investigation finds that if the president of the S. F. B. T. Council is politically ambitious, the fact that he is so has never been demonstrated by any official act of his while representing the S. F. B. T. Council as its president.

"The committee, on the contrary, is satisfied that the interest taken in the building industry by the president of the S. F. B. T. Council is actuated not by any selfish motives as the writer of the herein before mentioned article openly charges, but, on the contrary, that the building industry may be elevated to a higher plane and the industrial conditions of the various crafts who are engaged in the several departments of the building trades may be benefited.

"Your committee, as representatives of the Alameda County Building Trades' Council, on numerous occasions, extending over a period of two years, had occasion to meet and consult with the president of the S. F. B. T. Council on questions of mutual interest to the respective Councils of S. F. and Alameda counties, and in dealing with these questions, we have, upon all occasions, found Mr. McCarthy courteous in manner, honest in dealing, firm in his convictions, generous and liberal in his views, temperate in his habits and arduous and untiring in his labors to the end that the interests of the various organizations affiliated with the Building Trades' Council might be protected; hence we view with disfavor any slanderous or libelous statements or insinuations that have been or may be directed against the president of the S. F. B. T. Council for doing something that (even the writer of the article himself cannot deny) materially benefited all; and while your committee deprecates the fact that it is beyond its power to take such action as would, in its opinion, be productive of punishment sufficient to be in keeping with the enormity of the offense committed, the committee repudiates the article in its entirety, in so far as it relates to the president of the S. F. B. T. Council and also to the out-going officers of the Alameda County B. T. Council, and, in order that the injustice done said parties by reason of the publication of said article may so far as lies in our power be undone, we beg leave to submit the following resolutions:

"Resolved, That the Building Trades' Council of Alameda County recognizes in the publication of the aforesaid article a libelous, slanderous and scurrilous attempt on the part of the writer to damage the reputation of one who has, at all times, and in all matters pertaining to the welfare of organized labor, proven himself to be worthy of the high esteem in which we hold him; and, any statement to the effect that P. H. McCarthy has, at any time worked or is now working in a derogatory manner to the best interests of organized labor, we unhesitatingly brand as an unmitigated falsehood and a fit production from the pen of the living libel and diminutive slander monger from whom it emanated, who, with no end in view other than to satiate an abnormal desire to himself pose as a thing of consequence; and be it further

"Resolved, That in so far as the article in question relates to the retiring officers of the Alameda County B. T. Council, in which the writer refers to them as rascals, the industrial conditions as they at present exist, relative to the building trades in Alameda county, taken in conjunction with an official record of all business transactions with which said officers have been officially connected will, of themselves, furnish proof sufficient to repudiate any slanderous or vilifying efforts that may be directed against them by one whose methods we condemn, whose motives we detest, whose presumptuousness is only tolerated by reason of his insignificance; whose arrogance we despise and whose

last and greatest qualification, viz., absolutely incompetence to distinguish good from evil commends him to us as a fit subject to whom to extend the charity of our silence; and, be it further

"Resolved, That the B. T. Council of Alameda County recommends that all unions affiliated with the B. T. Council of Alameda county withdraw their support from said paper, 'The Contractor and Builder,' and, be it further

"Resolved, That a copy of the resolutions be spread on the minutes of this meeting and the secretary be instructed to procure and forward a copy of the same to the B. T. Council of San Francisco and also to the press for publication.

BOGUS SCHEMES  
ARE EXPOSED.Merchants Are Called Upon to  
Keep Their Agreement.

At the meeting of the Merchants' Exchange September 3d, considerable discussion was held with regard to the present influx of so-called advertising schemes calling for gifts of pianos, automobiles and other articles for the purpose of inducing trade.

It was decided that it would be a good idea to call the attention of the merchants of Oakland to the fact that about two years ago an agreement covering gift enterprises was circulated throughout the city and was signed by about every merchant and business man. The following is a copy of the agreement now in possession of the secretary of the Merchants' Exchange. Any one wishing to see the same with signatures annexed thereto is at liberty to do so.

"We the undersigned merchants of the City of Oakland mutually agree not to use, purchase or accept trading stamps, amusement stamps, or any other stamp or coupon that will compel us to give away a percentage of our profits to a third party.

"This agreement must be signed by all the above named merchants. We mutually agree that this agreement shall go into effect on the first day of August, 1899, and shall remain in force for the period of five years from above date."

It is hoped that the publication of this article will remind the merchants of their agreement which is still binding and will cause them to be very careful in entering into any of the schemes which seem to be epidemic at the present time.

SAYS HE ATTACKED  
HER WITH A KNIFE.

Mary Netto has commenced suit for a divorce from J. R. Netto on the ground of extreme cruelty. The couple were married in February of 1899. It is alleged that Netto beat and choked his wife on numerous occasions. A few days ago, it is alleged, Netto chased his wife with a knife and was only prevented from using the weapon upon her by the interference of their son. Mrs. Netto asks for \$40 a month alimony and an order restraining her husband from withdrawing his money from the bank.

WILL NOT BE SENT  
TO REFORM SCHOOL.

W. S. Canty and wife of 723 Center street, appeared in court this morning to contest the application of Mrs. Eliza Swift to have their 17-year-old daughter, Louise Canty, sent to a reform school. The matter was finally compromised by Mrs. M. F. Ayers agreeing to take charge of the young girl and teach her the millinery business. Judge Melvin awarded the custody of the child to Mrs. Ayers.

A number of witnesses testified that the girl would not obey her mother or go to school. The action of Mrs. Swift, who is an agent of the Associated Charities, was taken to keep the girl off the streets. Mr. and Mrs. Canty were represented in court by Attorney W. S. O'Brien. Assistant District Attorney Samuel dismissed the prosecution of the case when Mrs. Ayers agreed to take charge of the girl.

HIS BREAST.FRED PARSONS DISHONORS  
THE FLAG OF HIS  
NATION.Found Guilty by the Carpenters  
and Expelled From the  
Union.

The Carpenters' Union of this city, otherwise known as the U. B. C. J. A. No. 36, stands for the honor of the flag of the nation as well as it does for fair compensation and eight hours as a day of labor.

This was exemplified last night in the expulsion from the ranks of this organization of a former member named Fred Parsons, on the ground that he had dishonored the flag of the nation. Parsons admitted his offense and gloried in it on the ground that he was an anarchist, despite the fact that he was born and raised in the country under whose flag he has been granted protection.

He made his profession before the Carpenters' Union last night in a manner, the positiveness of which there was no mistaking.

"I am an Anarchist," he said. "I have no country. I, therefore, don't want any flag and I have no use for any flag. I, therefore, do not want to wear the flags of this country or any other."

This brazen enunciation of anarchistic principles was made when Parsons was charged with having torn the American flags from his carpenter's badge and walked in procession without the national symbol on his breast like the other members of the union.

It was known on Labor Day that Parsons did not have the flags on his badge, a fact which he did not conceal from any of his associates. Indeed, to some of those who marched with him he declared that he had torn the flag from his breast.

The news traveled fast and not a few of the carpenters in line were in favor of treating Parsons to summary physical chastisement for his dastardly deed. Cooler heads prevailed, however, and the matter was continued until last night, when the charge, admission and expulsion took place.

Some members said they knew Parsons had dishonored the flag by pulling the crossed flags from his breast.

Others went so far as to say that they had seen Parsons take the flags off, throw them to the pavement and trample upon them.

Be that as it may, on motion of Fred Murdoch, a committee was appointed to investigate the charge. The committee reported that the charge was sustained and recommended expulsion.

Accordingly, Parsons is now, and until he purges himself of his offense, disbarred from membership in the United Brotherhood of Carpenters and Joiners of America.

LOGAN, Utah, Sept. 6.—Abe Majors, the "murderer of Captain Brown" of the Ogden police force near Brighton City two years ago, who has been granted a new trial by the Supreme Court of the State, was brought here from the State Prison today and his case will be called tomorrow. What the result of the new trial will be is a matter of much speculation.

The recent shooting of Deputy Sheriff Thompson about two months ago at Brigham City, while in the act of entering the yard of his home, created a wave of feeling against Majors, as there was a current belief that the shooting had been done by friends of Majors in order to get Thompson out of the way, as his testimony at the new trial would be damaging to Majors. Thompson, although his life was despaired of at the time, recovered, but his assailant was never discovered and the feeling has practically died out.

[Abe Majors is an Oakland boy.]

NEW THEATRE FOR  
SAN FRANCISCO.

A theater is projected for Union Square. A proposition has been made to Daniel L. Randolph, the owner of the former Cosmos Club property on Powell street, between Geary and Post streets, to syndicate the land for the erection of a \$400,000 structure thereon. The lot immediately adjoins on the north the future hotel building, on the northwest corner of Geary and Powell streets, on the site once occupied by Cavalry Church, and it is in line with the scheme that it shall be in height and design in perfect harmony with the plans made by Bliss & Faville for the caravansary which as yet bears no name.

LARGE PLANS  
FOR THE S. P.Harriman Will Bring the Over-  
land Trains Up to  
Date.

Under orders from E. H. Harriman, the regular passenger trains over the Southern Pacific from end to end will be effectively vestibuled within sixty days. Within the same period fifty chair cars will be put into service. Harriman has also ordered for the Company 2,000 flat cars, 500 stock cars, 400 forty-ton coal cars, 1,000 thirty-ton box cars and 250 furniture cars. A thousand of the flat cars are to be built in the shops at Sacramento and New Orleans.

In a financial statement just issued Mr. Harriman states that, for the first five months of this year the Company gained in gross earnings over the same period of last year \$6,197,200. No other road in the country shows such a large increase. The Pennsylvania comes second with a gross increase of \$4,951,000. In the period mentioned the net gain of the Southern Pacific was \$2,840,643.

Harriman expects the last important piece of reconstruction work on the Union Pacific to be completed shortly at a cost of \$1,000,000. It is the Aspen tunnel in the Rocky Mountains, with a length of 5,900 feet. In rebuilding the Union Pacific Mr. Harriman has accomplished the almost incredible feat of crossing the Rocky Mountains with no greater grade than 43.3 feet to the mile.

The new petition was filed to rectify the error.

Government experts declare that Alaska has a great agricultural future. It ought to be a good place for ice plants.

Now comes an individual who claims to have discovered the function of the vermiform appendix and says it is a lubricant. It certainly is for the doctors.

A big bullhead breakfast is to be given the Native Sons when they invade San Jose next Saturday. The bull can will doubtless also be passed out very lavishly.

Yolo county is shouting for irrigation. That's funny—Sacramento county, next door, is under water half the time. Why don't they get together and even things up.

Cattle supplies are said to be unusually scarce in the Klondike country. The roast beef served in the restaurants up that way nowadays must, in consequence be very rare.

The train robbers who held up the Cotton Belt line are said to have gone away with \$50,000. The road will now have to take up its lost a few holes and clutch the dear public enough to get even.

## PROCRASTINATE NO MORE.

With so many Pacific Coast interests involved in the proposed cable to Honolulu, Hong Kong and Manila it would be well to thoroughly inform upon the members of our congressional delegation before they leave for Washington this winter the necessity of exerting every energy for the passage of the long-delayed appropriation. It is commercially ridiculous to have to wait ten or twelve days before we can make round trip communication with a place where we have so many important trade interests as we possess with Hawaii and although it is true that a telegraphic system is maintained with the Orient the messages have to be sent by such a roundabout way involving the loss of so much time and money that the service can be considered very unsatisfactory.

In view of this condition of affairs nothing could come at a time when it would have better effect than a report just made to the Government by W. A. Rublee our Consul-General to Hong Kong. "In connection with the proposed construction of a cable from the United States to Manila and its eventual connection with Hong Kong, 'I have to report' he says, 'that the business community of Hong Kong takes a keen interest in obtaining additional cable facilities. The excessive rates charged by the present cable companies have been a source of long-continued dissatisfaction and an American cable company that would be the means of reducing rates would be extremely popular in the Orient and should receive a large share of local patronage. The present cable tariff between the United States to Hong Kong is from \$1.65 to \$1.75 (United States Currency) per word. It is reported that an American cable company would establish a rate not exceeding \$1 a word. Such a reduction would be a great boon to the business men in the Orient. The chairman of the Hong Kong Chamber of Commerce last month, at my suggestion brought the matter before the com-

mittee of the Chamber, and this representative institution indorsed the project, expressing the opinion that the increased facilities afforded by reduced tariff rates would lead to a very considerable expansion of trade between the Far East and Western countries."

After this official statement as to the possibilities of profit for the proposed cable more reasons than ever exist for terminating the procrastination that has attended the project. The Pacific cable is a commercial necessity under our present conditions and when it comes to figuring upon prospective trade in the Orient it is not possible to get along without it. If our government is going to build it work should be commenced at once; if it is to be left to private enterprise then all the necessary assurances on our part as to subsidies and so forth should be forthcoming without further ado.

## SENATOR PERKINS TELLS OF STRIKES

Declares That the Laboring Man Has a Right to Organize.

Senator George C. Perkins has given his views on the present strike as follows:

"Personally I have always been in favor of labor unions when they have been organized for mutual benefit, assistance, protection and relief, and for the purpose of obtaining good wages and reasonable hours of labor, believing they have a right to organize for protection as have capital and trust. Indeed, in our State Legislature and in Congress I have always voted and advocated the enactment of laws against trusts and combinations of capital that were calculated to monopolize any industry or oppress labor. This seems to me just and right. In this country the laborer of today may be the employer of tomorrow, and a working man of this year may be the capitalist of next year. Every avenue to wealth, industry or political preferment is open to the humblest in the land and there should be no law that is not equal or just to both the poor and the rich.

"I think Archbishop Ireland of St. Paul expressed the right sentiments of every true American citizen when he stated that labor had the same right to organize and protect itself as capital had, but when either capital or labor was organized to oppress others or to prevent individuals from working to earn a livelihood for themselves and support their families or others depending upon them, that they became oppressive and interfered with individual rights, which is the inalienable right of every citizen. "But while the right to enter upon a strike is and must be conceded as a right belonging to the personal freedom of workingmen, this must be ever demanded, and in the name of the same principle of personal freedom under which many refuse to work. That they who may cease to work must in no way interfere with the liberty of others who may wish to work. "The personal freedom of the individual citizen is the most sacred and precious inheritance of Americans. The Constitution and the laws authorize it; the spirit of the country proclaims it; the prosperity of the people, the very life of the nation, rests on it. Whatever the other interests at stake, that of the personal freedom of the individual outranks them all, and this must be sustained, even if those are to be sacrificed."

## ROBINSON ESTATE IS READY FOR DISTRIBUTION.

The property consists of realty at Willow street and Central avenue, Alameda, about 1,400 acres of land in Yolo county, \$1,528.75 in cash, fifty-five shares of stock of the Vallejo Commercial Bank, twenty shares of stock of the Alameda Savings Bank, promissory notes aggregating about \$5,500 and some personal property. ## OWNERLESS GOLD BARS IN OAKLAND.

AN INTERESTING STORY IS RECALLED BY THE MINT THEFT.

Gold Went to Poor People and Was Quickly Squandered.

"The recent theft of \$20,000 worth of gold bars from the mint in San Francisco and the robbery of over a quarter of a million dollars, also in gold bars, from the Selby Smelting Works, near San Francisco, calls to mind the discovery of a large but unknown quantity of gold in bars in a house which was being demolished in Oakland, just across the bay from San Francisco," says a Washington correspondent.

"I was engaged in newspaper work on the coast, at the time in Oakland, in fact, and I am conversant with the particulars from personal knowledge though the discovery at the time excited but little local interest and so remarkable was it that it was doubted in some quarters. Subsequently, however, the truth was developed. The gold bars, to an estimated quantity of \$250,000, were actually found, but to whom they had originally belonged, or by whom they were stolen, is still a mystery. As it happened about ten years ago I cannot recall the names of the parties with accuracy, though I once knew them, every effort of course being made at the time to keep the 'find' a secret.

"A two-story frame house on Tenth street, in Oakland, was owned and occupied by a family, the head of which at the time in question, and for a great many years, over twenty, I think, was an employee in the San Francisco mint. I remember the house well. The old man died suddenly and the house was at once sold by his heirs. The new owner began tearing it down, intending replacing it with a business structure. In digging away the lower walls an Italian laborer came upon a gold bar hidden in the foundations. He covered the bar up with earth and went on digging, but soon unearthed so many other secreted bars that his find was discovered by three other men employed with him. They at once entered into a secret compact to collect the bars themselves and inform no one else, especially the contractor and the owner of the great and unexpected wealth with which they had so suddenly become possessed.

"The men were all laborers, two being Italians, I think. They were successful in getting the gold away from the premises, unobserved by others. The first indication that something of an unusual nature had happened to these four men was that they quit work for good and made heavy investments in real estate. Their purchases excited suspicion, as they all had been very poor men. To cut short a long story, however, it was ascertained that they had in fact found the gold, and they were, under legal advice, converting it into other property to prevent the possible owner from laying claim to his original property. "In this way they were all successful. In fact, luck appeared to be with them. No one came forward to claim the hidden treasure for the very good reason, undoubtedly, that the only other person on the face of the earth who had known of its whereabouts was dead. One man bought a ranch in the central part of the State for \$70,000. The Italian living in Oakland bought a fine new house, furnished it luxuriously, paying \$1,000 for a piano, and bought his wife an unlimited quantity of diamond jewelry.

"The old adage, however, that stolen gold brings to its possessor bad luck, in the end proved true. In less than five years the ranch owner was bankrupt and the ranch had reverted to its original owners on foreclosure. The Italian lost all of his property and returned to live in the little cottage in North Oakland he had vacated for his fine house. The only thing he presently had to remind him of his fleeting wealth was a Turkish rug worth about \$1,500, which he placed on the floor of the cottage and would not sell when all else had gone.

"The third man dissipated all of his wealth in fast living and gambling and died a pauper in a hospital in Seattle. The career of the fourth man I cannot recall accurately, but I know that he, too, lost all he had. The ranch owner, by the way, died a miserable death alone in a cabin on the Sacramento river and was buried by the town in the potter's field.

"The gold, of course, did not rightfully belong to the man who secreted it in the walls of the house. It was stolen from some one, and if it had been taken by the man who had formerly owned the house his heirs put in no claim for it for the reason that they knew it did not rightfully belong to him. It was considered improbable that any person other than he had secreted it, however, as he had lived in the house for many years, had built it himself, if my recollection is correct. "Since he had been for so long an employee of the mint, the general impression at the time was that he had stolen the gold, a bar at a time, from the mint vaults, bringing it home when he quit work at night. While this explanation was the one generally except-

## OFFICER SILL WILL BE SUED FOR DAMAGES.

Must Answer in Court for Beating J. H. C. Alexander With a Club.

The Board of Police and Fire Commissioners examined Officer Frank Sill on the charges preferred against him by J. H. C. Alexander. The latter alleged that Sill, while arresting him for drunkenness, placed handcuffs upon him and afterwards clubbed him. Sill denied the charge of brutality. Alexander says he will sue Sill and his bondsmen for damages.

## FINE CONCERT BY THE HUGHES CLUB.

The Hughes Club attracted an audience last night, which filled the auditorium of the First Unitarian Church, the occasion being the second concert of the club. This club has always given refined pleasure to its patrons in the choice of vocal numbers rendered and the skill with which the lady members of the organization acquitted themselves. The experience of last evening was no exception to the rule for the reason that every feature was rendered with a precision and appreciation which were well nigh perfect.

The Hughes Club had the benefit of several non-member soloists, who gave additional interest to the entertainment. The soloists were Oscar L. Lennan, tenor; A. Horatio Cogswell, baritone; Mrs. Orrin Kip McMurray and Mrs. J. Llewellyn Williams, accompanists; Mrs. Margaret Cameron Smith, piano; Mrs. George Westall, organ. The program was conducted by D. P. Hughes, the leader of the club. The officers of the organization are as follows: President, Mrs. Margaret Cameron Smith; vice-president, Mrs. F. M. Hughes; director, D. P. Hughes; treasurer, Mrs. W. E. Montgomery; secretary, Mrs. F. A. Wasley; librarian, Miss F. Long; voice committee, Mrs. J. Llewellyn Williams, Mrs. C. A. Allardyce, Miss Mary Chester Williams; music committee, Mrs. Orrin K. ## DUDES EASILY DEFEAT THE SACRAMENTO TEAM.

The Dudes defeated Sacramento yesterday by a score of 7 to 1. Johnson pitched for Oakland and the Senators were able to secure only three hits. Hoffer, who filled the box for Sacramento, was freely battered. Franks knocked out a home run. Several doubles were secured by other players. Los Angeles defeated San Francisco by a score of 5 to 2.

The estate consists of 180 acres of land near Altamont and some personal property. Besides Mrs. Wright, the heirs are two children, William C. Hobler, aged 35 years, and Mrs. J. Horton, aged 25 years, all residents of Altamont.

**"Could Not Sleep."**  
Sleeplessness marks the very climax of human suffering. It is only a step removed from insanity. When sleep no longer restores the exhausted nature, the struggle with disease cannot last long. The starting point of the nervous disorders which produce ill-health and condition of the womanly organs. Restore these organs to sound health and the appetite comes back, the day's work no longer wearies, and sleep is sound and refreshing. Dr. Pierce's Favorite Prescription cures diseases of the womanly organs. It stops the drains which weaken women; it heals the inflammation and ulceration, and cures female weakness. There is no alcohol in "Favorite Prescription" and it is entirely free from opium, cocaine and all other narcotics. It is a temperance medicine. "My health has been poor for many years and I had taken a great deal of medicine, but it did me no good," writes Mrs. Rose Kennedy, of Springfield, Adams Co., Wis. "Last August my health was very poor; I had no appetite and could not sleep. I wrote to Dr. Pierce and he kindly advised me to take his Favorite Prescription. I took a bottle of the 'Favorite Prescription' and one bottle of the 'Golden Medical Discovery' and I feel like a new woman." Cure sick headache by using Doctor's Kidney and Bladder Pellets.

STEEL STRIKERS ARE LOSING MUCH GROUND. Many Non-Union Men Are Taking Places of Strikers in the Mills. PITTSBURG, Sept. 6.—Rumors were current on the south side today that the Mongrelia tin plate works would be started in a few days. A wagonload of pots was seen going into the works last night and sleeping and eating quarters were being located in the mill for the use of the important men to be brought here to break the strike. Twenty more men returned to the Pennsylvania Tube Works today and over 200 men are now at work. Managers Lathrop will have a conference with the men who are still out tomorrow. A Canal Dover, O., dispatch says General Manager Cline of the American Sheet Steel Co.'s plant was assaulted by a striker this morning and carried to his carriage unconscious. It is not known how seriously he was injured. Two sheet mills are going this morning and preparations are being made to start several more.

## SPIRITUALISTS IN CONVENTION.

First Session of a Meeting Which  
is to Continue Till  
Sunday Night.

The Sixth Annual Convention of the  
State Spiritualists' Association opened  
in Macabbee Hall, southwest corner of  
Eleventh and Clay streets this morning  
at 10 o'clock.

The hall was tastefully decorated for  
the occasion with flowers and hop  
boughs, a large blue streamer bearing  
the name of the organization being  
stretched across the room behind the  
speaking officer.

The Convention was called to order  
by Mr. S. Newton of San Francisco,  
president of the State organization.

MARIE MONTAGUE.

A cablegram was received from Lon-  
don signed "Florence Montague," a spir-  
itualist well known in this city, and  
containing the words "Fraternal Greeting."

The reading of the telegram was greet-  
ed with hearty applause.

Miss Mamie E. Coup, the professional  
vocalist of the Association, who resides in  
Napa, B. C., sang in a very effective  
manner, "Only a Thin Veil Between Us."

Under the head of "Introduction of vis-  
itors" Alice Wolverson Eyre of Santa  
Rosa was presented and consumed all the  
available time up to the noon adjourn-  
ment expatiating upon a scheme which  
she has styled the ideal commonwealth,  
and there was also to be neither wage  
nor interest, price nor bargain, servant  
nor master.

The use of money and com-  
mercial and economic values were to be  
eliminated, and efforts were solely to be  
directed toward bringing about a "real-  
ization of the highest aspiration of the  
soul. The colony was to be located in  
California, comprise 50,000 acres, which  
were to be purchased by rich persons  
residing in England, France, Austria,  
Germany, Russia, Australia, New Zeal-  
and and the United States. Dwellings  
were to be circular and there was to be  
a circular temple which should typify the  
perfect individual. Monogamy was to  
be obtained but it was to be practised with-  
out ecclesiastical or civil contract.

One of the delegates said: "My sisters,  
you may as well understand what this  
means. Where there is no ecclesiastical  
or civil marriage contracts, it means free  
love."

Said another: "The ecclesiastical con-  
tract makes no difference to us. It is  
for the children we care. We need a  
civil contract for them."

There was a noon recess.

The convention will remain in session  
morning, afternoon and evening until  
Sunday night.

## A STORM IN THE COUNCIL.

Methodists Aroused by Paper  
Read on the Subject of In-  
ternational Peace.

LONDON, Sept. 5.—A stormy meet-  
ing of the Ecumenical Methodist  
Church resulted today from the read-  
ing by the Rev. W. C. Smith of Pitts-  
burg, Pa., of a paper on "The Influ-  
ences of Methodism in the Promotion  
of International Peace."  
The five minute rule was adopted  
and the pastors made speeches for and  
against the war in South Africa. The  
campaign came in for a lot of criti-  
cism, and finally the chairman ruled  
reference to it out of order. Many  
Americans took part in the discussion,  
but none of the more prominent bi-  
shops spoke. The speeches were punc-  
tuated by frequent and noisy interrup-  
tions and cheers and counter cheers.  
There was a scene of considerable

disorder and the discussion termin-  
ated without any conclusion being  
reached.

**DECEASED COW WAS  
CAUSE OF TROUBLE.**

Louis Shapiro, residing at 310 Fourth  
street, was arrested last night on the  
complaint of A. Simon, charging bat-  
tery. Both men are butchers and got  
into an altercation over a diseased cow,  
which ended in a fight. The case will  
come up for trial tomorrow in the Police  
Court.

Shapiro states they both went to Pied-  
mont to purchase a cow, which upon in-  
vestigation was found to be diseased.  
Simon, the arrested man, states he pur-  
chased the cow anyway.

This fact led to a wordy dispute and  
subsequent fight, leaving Shapiro in jail  
on a charge of battery.

**JAPANESE YOUNGSTER  
A PLAUSIBLE PLEADER.**

Sapa Fushyma, a dapper little Japa-  
nese student with a perennial smile, was  
arrested for malicious mischief on the  
complaint of Dr. O. Hyde. Fushyma  
was accused of throwing stones at the  
physician's residence. The young Jap  
explained his case so artlessly in pigeon  
English to Judge Quinn in the Police  
Court this morning that the complaint  
was dismissed.

as attorney in place of Joseph Roth-  
schild to represent Henrietta Lesser, an  
administratrix of the estate of Isaac  
Lesser, deceased.

# PAID PENALTY OF HIS CRIME

LUTHE, Mont., Sept. 6.—A special to the Inter-Mountain from Deer Lodge, Montana, says: James McArthur, alias James Fleming, was hanged here this morning for the murder of Captain Oliver Dossou last February. The execution was witnessed by nearly every sheriff in the State and a large number of invited guests.

McArthur kept his nerve to the last and walked to the gallows without a sign of weakness. After taking his place on the platform he was given permission to make a statement. He launched into a torrent of abuse of the men who had been instrumental in sending him to his death and again that he was an innocent man.

He rambled on for several minutes and finally the sheriff, seeing there was no chance to stop him, gave the signal for the trap to be sprung. The drop fell at 10:15 and McArthur was pronounced dead seven minutes later. Sheriff McArthur stated today that on the night of August 24, McArthur had secured an ordinary needle with which he punctured the arteries in the wrist and neck. When discovered by the guard he was bleeding from a dozen punctures and busily engaged in opening fresh wounds. Had it not been for the rapid clotting of the blood in the wounds, the sheriff thinks McArthur would have succeeded in cheating the gallows.
